Comments Report

Spring 2020 Course Feedback Form

What are some of the major strengths of the course?

- It is a smaller sized class that might allow to freely ask questions.
- It was a review class so we could go over the material for that week.
- Major strengths were the quizzes to determine understanding of topics before the lecture class and the help provided by instructors.
- questions were well excepted and would be answered with an explanation.

What are some of the major opportunities for improvement?

- I would give a review sheet to everyone besides to people in groups because most of the time people in the groups don't want to talk, they don't want to be there, and they don't know what they're doing.
- Opportunity for improvement was how the class was set up so it is more organized in order to cover everything in a timely manner.
- Post the answers and explanations to the recitation worksheets after class.
