Very formal and composed
Have more HW, maybe a sheet with some problems after every class
I really enjoyed Mr. Chakravarty's class. It was engaging, fun, and insightful. He was always able to help and made the subject easy to learn.
Keep going!
I enjoyed how prepared, energized, and confident Prof Chakravarty was in class. He was thorough with his explanations, and always stopped to make sure we understood and were following along, which I really appreciated. The sheets used in class were also extremely helpful.
i enjoyed the class in every aspect.
He so clearly cares about all his students and both their well being and doing well in the course which I really appreciated
A really great teacher! Very passionate about the subject and knowledgeable.
Mr. Chakravarty is an amazing teacher who puts his students first and cares about us in all different types of ways. His teaching style was lecture heavy and we had weekly homework assignments that covered what we worked on in class. Mr. Chakravarty was always around for help when needed and is just an all-around great guy!
Amazing Teacher! Always organized and ready to explain anything
i liked smartbooks they were helpful
Fantastic teacher and I don't know what I would change to improve the class.
He was very king and always available to help.

Not much experience and it showed unfortunately. When we weren't going along with curriculum the class was lackluster. It was clear most of the class didn't take his teaching very seriously. They still payed attention but lots of people would zone out
Asking more questions to the class, just making sure we are understanding the material
I think some classes could be a little less lecture heavy.
nothing!
i enjoyed the class in every aspect.
n/a!!
Mr. Chakravarty needs to do a better job of including the class during his lectures. It is hard for students to sit there for over an hour and listen to him speak. Group work and discussions in the class would help greatly with keeping focus!
he glazed over topics too fast. just went over stuff but wouldn't explain details well. would explain concepts with other similar concepts we didn't understand
Don't think anything could really be changed
Sometimes the lectures would be a little confusing.
