Comment on aspects of the instructor's teaching style that could be improved upon to help the learning process.

Comments
The learning process could be improved by having more in-class practice, study guides, and more specific questions on tests.
out of class work was very difficult and often had questions about concepts that were not covered in class, classwork and notes were often not organized and hard to follow which made studying for exams difficult as well.

One thing he could improve is how he does tests something could be implemented to have better study tips.
some of the homework included parts we hadn't learned yet
Alittle rough at answering questions at the beggining but now spot on very good.
My learning process may have been improved if there were more in-class practice activities in addition to lectures.
Satyaki sometimes did not engage the class well.
Class was not engaging, group work days helped.
